## GRP (glass reinforced plastic) elevated cable route

### Product Description

A post-mounted GRP (glass reinforced polyester) elevated cable route to protect and contain cables at trackside.

The troughs are 6 metres in length and supported on proprietary, galvanised steel posts at 6-metre spacings.

### Scope of Acceptance

#### Full Acceptance

Full acceptance as an elevated S&T cable route for protecting and containing cables in external locations on Network Rail's estate.

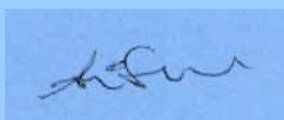

NOT accepted for use in sub-surface stations or tunnels.

NOT accepted for protecting and containing high voltage or extra high voltage electrical cables.

Network Rail Acceptance Panel (NRAP) hereby authorises the product above for use and trial use on railway infrastructure for which Network Rail is the Infrastructure Manager.
